

Rural Affordable Housing

Enabling Gloucestershire's Rural Affordable Housing Delivery

GRCC is dedicated to supporting rural communities in addressing critical issues. Proactively bringing Affordable Housing into your area ensures community survival by providing subsidised housing for those who can't afford market prices.

How GRCC can help:

- **Gloucestershire Rural Housing Partnership** - GRCC facilitates this partnership of local authorities and housing associations working together to establish Affordable Housing Needs and enable the supply of Rural Affordable Housing in Gloucestershire.
- **Affordable Housing Needs Surveys** - GRCC conducts, analyses and reports on these to enhance the supply of Rural Affordable Housing in Gloucestershire for the GRHP and other clients.
- **Affordable Housing Manager & Rural Housing Enabler** - Working with partners to enable new Rural Affordable Housing projects.
- **Community-Led Housing** - Supporting community groups to start, find a site, fund, design, and build their own Affordable Housing locally.

As the host of the Gloucestershire Rural Housing Partnership (GRHP), GRCC is the one-stop shop for all of the latest information, advice, and support on affordable housing across the county.
